I'll try to engage Jeff after I have a draft. He and I are exchanging correspondence this morning about other things.

I'm going to write a Sit-Rep contribution with Ryan's help and then I'll try to pivot to that. Also meeting with Susan here shortly. I'll aim to have something on this by COB today.

Dan – Yes. This is the same thing that you forwarded at 7:58am, right? I just want to make sure I’m not crossing wires. Here’s what I’m tracking in terms of guidance:

The ask: Please send me by **Wednesday COB** two items from your programs that illustrate major regional accomplishments either from this past year or from the past four years. As much as possible, please keep the submissions:

- *short (a few paragraphs);
- *compelling (answers the “so what?” question, ie., why is this important, what is the impact?);
- *actively written; and
- *with numbers and data wherever possible.

Michelle and I will also cull through what we have in the Org Assessment and other resources in search of other possible accomplishments.

Do you have the bandwidth to give it a shot? Trick is to make it short but relatively punchy. I think the “so what” is ensuring public health protection for users of private wells and making sure that this typically lightly regulated situation does not fall through the cracks. Also could highlight the thoroughness of the analysis.

I like the idea of the LUB GWMA effort. Ultimately, I think it’s positive all the way around. The petitioner may not entirely agree, but I really appreciate that they brought forward the concern in a well researched manner, and Ex. 5 Deliberative Process (DP) the attention they brought to some aspects of it have been good. Were it not being inundated by “events”, the State seems to be sincerely engaged on the matter. It’s a great story of entities playing the role that they should play.

Pretty exciting.

On another front, I am thinking I would like to be able to pull something from within the DW Program (could include either of the SRFs) as one of our submissions for the Agency annual plan. Maybe there is a particular SRF project that we would like to tout? Do we have an anecdote about a particular effort with a system in violation? Maybe the LUB GWMA effort?

Hello Anna;

Non-responsive per agreement

Please let me know if you are okay with R10 moving forward with issuing these permits?

Thanks.
